WORK EXPERIENCE

Brand Strategist & Software Engineer

12/2024 – PRESENT

Jung International LLC | [Website](#)

- Disrupted the marketing industry with revolutionary field cards, a two way communication achieved through NFC cards to make networking more personal again.
- Developed a social media platform that removes the complications of setting up an account before posting, making the backend open source on the front end.
- Created slide cards which are a mobile only design that allows users to present disruptive technology combining the traditional method of values, features, benefits with modern tech.

Entrepreneur, Business Owner

03/2018 – 12/2025

Rumi Design and Technology | [Website](#)

- Built a company, through prospecting and cold calling; then learned how to design, develop and host my own websites to give the client a competitive advantage in their marketplace.
- Accomplished successful delivery of 40+ client projects, across many industries.
- Sourcing global resources, identified and secured global design and dev resources to assist in each of the projects.
- Created an effective process to streamline communication across design and development.

TECH PROJECTS

iChat | [Source](#)

A chat system for those love privacy and security

- Create a chat link, share it with your friends, say whatever is on your mind, then end the chat.

Blur | [Source](#)

Privacy is key for sophisticated clients, we pioneered a smart way to blur out sensitive information in our videos.

- Upload the recorded video and blur out logos and sensitive information in a timeline. Each blur has it's own timeline to make this software user friendly.

Watch Me | [Source](#)

Screen record your projects to present them in a sophisticated manner.

- You can capture your computer's desktop, mobile phone recording screen, and your face at the same time to present applications.

Resume Maker | [Source](#)

Built a resume builder to apply for jobs ;).

- The builder runs through a checklist of essentials needed to qualify for a software engineer position.
- You can edit the builder easily like a word doc, yet more simple and download the pdf to share.

Joy Machine | [Source](#)

An intro, Outro, Lower Thirds and Subtitles video maker

- Content is King, so I kept only the best parts in presenting ideas over video to make any video look professional.
